für Verkehr, Innovation und Technologie

Mr. Alistar Darling

[REDACTED]

Frastanz, 18 July 2007

Dear Alistar!

Because of my retirement of the Austrian Government at the beginning of the year I got a lot

Because of that I'm going on to establish relations in consulting – that's why I apply to you, my "long-time friend". I intend to do project-related activities limited in time as well as I would like to innovate my long and positive experiences, my "know-how", all my previous experiences – commercial and political – in supervisory boards and advisory boards etc.

Therefore I accepted with pleasure the election in the supervisory board in one of the most famous Austrian firms – the RHI-group (world market leader in refractory products, quoted).

If you know about any area of operation for myself, where I am able to intend all my experiences and my know-how, please let me know, I am available anytime for further information.
